INSPIRATION

Find inspiration by looking at how others fulfill requirements.

1 *Write the conservation challenge (or a part of it) in the middle of the poster.*

2 *Discuss how the 8 D4C strategies provided might apply to your challenge. If you want, feel free to replace these with different strategies.*

3 *For each strategy look for an inspirational example from a different field. Write these in sticky notes on top of the coloured boxes.*

4 *Think about what makes this example so good. Write the 8 most important characteristics around each example.*
